building your evidence-based practice

COURSE OVERVIEW

- Go to:
www.therapiststrainingtherapists.com
to view a “10 minute on demand course overview.”
- OT and PT clinicians want reliable and valid tools to guide clinical decisions and identify impairments.
- This course will teach clinicians how to identify the right tool and define specific impairments in Balance, Gait, ADL, IADL, Sensory and Motor skills.
- Learn how to select assessment tools to measure risk factors for falls, emergency response and ability to live independently.
- Hands on course - Explore assessment tools, practice documenting & apply to case studies
- 6 PDU's for NBCOT Renewal
- Certificates of training will be provided at end of course

KEY SEMINAR FEATURES & HIGHLIGHTS

- Review numerous assessments applicable to post acute and acute rehab, SNF, home health and outpatient settings
- Review resources available to develop your evidence-based **clinical tool box**
- Learn how to incorporate assessments into **evidenced-based practice and documentation**. This course will assist you in selecting assessments to meet the *Functional Data Collection Requirements for outpatient Medicare B documentation*.
- **Hands-on** application of assessment tools through case study application of evaluations, progress reporting and discharge planning scenarios – appropriate to all settings

PARTICIPANT REACTIONS

“Dynamic presenter, high energy -- easy to listen to!”

“Great presentation! I can't wait to get back to my clinic and try out these new ideas!”

YOUR COURSE INSTRUCTOR

Presented by Cathleen Johnson, MS., OTRL, a Division Rehabilitation Director for a large health care organization in which she provides both operational and clinical oversight for multiple post acute rehabilitation departments. Cathleen has over 25 years of health care experience understanding the role of the clinician, the department head and operator. She was appointed an additional role of Clinical Rehabilitation Consultant that allows her to provide guidance on documentation practices, clinical training and continuous quality improvement initiatives. She is a dynamic speaker that has trained thousands of clinicians nationwide.
